

WOOL GROWERS OF ARIZONA ARE PROSPERING NOW

Three Lean Years Followed by Good Season Makes Them Jubilant.

Phoenix, Ariz., April 7.—Three lean years have been followed by a season of highly satisfactory profits for the wool growers of Arizona. The present season is by far the most successful they have ever had.

There is no appreciable increase in the clip over last year, when 3,900,000 pounds were shipped east from this state. The quality is slightly better, however, owing to better feed on the ranges and a milder winter, and the prices range about 20 percent higher. Last year the price was from 14 to 17 cents; this year they are from 17 to 22 cents. No trouble is being experienced by any of the growers in disposing of their clip.

The high prices are due to the non-recoup of foreign wools. Fourteen car loads shipped from Prescott brought 22 cents a pound, or a total of \$55,000.

In 1912 the lamb crop was what sheep men call a "60 percent crop." That is, the increase equaled 60 percent of the ewes. But this year a 90 percent crop is reported.

RANGE AND CATTLE

Big Springs, Tex., April 7.—W. G. Murray, of Abilene, Texas, has purchased 1000 head of cattle and a lease on 25,000 acres of land from Francis Abney, of this county. The consideration was \$75,000. The land comprises the former Bush & Tiller ranch and is located in the northeastern portion of this county and in Borden and Mitchell counties. Abney still retains his 30 section ranch west of the one sold to Murray.

O Corn-less Joy!

"GETS-IT" for Corns
Nothing in the World Can Beat It for Corns and Calluses.

Now try the different way, the painless way of getting rid of those corns that have bothered the life and soul out of you for such a long time. Drop everything and use "GETS-IT." In a few drops applied in a few seconds does the work. Useless junk, life flesh-eating salves that make corns swell, cotton rings that make corns stand like pop-eyes, razors, corn-diggers, scissors and files that make corns grow faster, are all done for. "GETS-IT" is on a new principle, makes corns shrivel, vanish. It can't stick to the skin, or hurt the flesh.

"GETS-IT" is sold by all druggists. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.—Advertisement.

MAKE \$60,000 CATTLE SALE IN MIDLAND COUNTY

Upton County Ranges Are Helped by Rains; Heifers Bring \$40.

Midland, Tex., April 7.—A \$60,000 sale of steers and black muley calves has been made by J. H. Yates, who ranches 30 miles northwest of Midland, to William Bryant, who has a ranch 15 miles south of this place. In the deal were 1100 black muley calves and 1100 steers.

Rains Help Ranges.

Upton county cattlemen report that good rains have fallen in that county and the range has been put in fine shape.

William Manning has sold 200 heifers and 200 steers to A. G. Burton, of Highmore, S. D., at \$10 around. They are to be delivered April 25. E. T. Cobb, of Glasscock county, reports the sale of a bunch of cows to H. Harris, of Lamesa, for \$55 around.

CORONA STOCKMAN INSPECTS CATTLE

Corona, N. M., April 8.—H. K. Rountree, one of the extensive cattlemen of this section, has shipped in a large bunch of Mexican cattle, which he has placed on his ranch.

F. M. Dubois, who has been feeding sheep the past winter near Kansas City, Mo., is expected to return to his ranch here in a few days. Mrs. Dubois and two children will return with him.

J. T. Davidson is in Vaughn, where he is receiving a bunch of cattle which recently were purchased by him.

A. W. Colbough has received several hundred head of cattle from Bert Stroopes, which he will add to his large and already well stocked ranch.

Zeb Owens has purchased the O. C. Baker ranch, 25 miles from Corona, which contains a fine well of water.

Lewis E. Kierker has just had a fine water well drilled on his ranch, near Varney. An exceptionally big flow of water was struck at a depth of 314 feet. He has purchased land within three miles of Torrance and near Elbow Wells and will run a large number of cattle on the new acreage.

RECORD CATTLE SALE IN DEMING MARKET

Deming, N. M., April 7.—A cattle sale negotiated by the transfer of 2000 head, brought several dollars a head more than the prevailing market prices and established a record for the local market. The stock will be shipped north to feeding pens in May. Those interested in the sale were Hyatt brothers, J. P. Kuhn, Edward Latham, James Kerr, A. C. Barkdale and W. R. Templeton.

Cattlemen report stock and ranges in Luna and Grant counties in better condition at present than for several years past. The tariff law does not seem to have affected the cattle industry.

MANY GILA CATTLE TAKEN BY BUYERS

Globe, Ariz., April 7.—Many cattle are being purchased for shipment by prominent cattle buyers, several of whom are now in the district. Among them are Charles Mahler, of Albuquerque; C. McCamy, also of New Mexico, and J. E. Nicks, of Nevada, Calif.

Mahler expects to ship a large number of cattle purchased in Pleasant Valley. Newman will ship 500 head bought from the Indians at the Wyo. River agency. McCamy has made large purchases to be shipped to northern ranges.

MARFA CATTLEMEN ORGANIZING A CLUB

Marfa, Tex., April 7.—A movement has been started by cattlemen of Marfa to form a Cattlemen and Stockmen's club. It is planned to lease the lower part of the new Masonic temple for the club's quarters. W. B. Mitchell inaugurated the movement and it is being pushed.

MUCH MEXICAN STOCK IS BEING IMPORTED NOW

Shipments From El Paso Show a Decided Gain During the Week.

Cattle importations and shipments have been more lively the past week than for some time. There have been a number of big importations from Mexico and also large interstate shipments.

Edgar Timmerlake has purchased 40 thoroughbred bulls from the Bragg ranch at Marfa, and has shipped them to Globe, Ariz.

Wall and Ashburn have shipped 245 yearling bulls to W. B. Wall, at Pantano, Ariz.

The G. O. S. Cattle company has shipped 62 bulls from the company ranch at El Paso, N. M., to Whitewater, N. M. The same company has bought about the same number of bulls through Harry Robinson, of Amarillo, Texas, and has shipped them through El Paso to the company's ranch at Whitewater. The Big Horn and Love Cattle company has imported 1333 head of Mexican cattle. Of this amount, T. W. Boone has bought about 400 head and shipped them to Whitewater, N. M. Mexican cattle has been shipped to the markets at Fort Worth.

Being over 742 Mexican Cattle.

Booker and Nicks have brought over 742 head of cattle from Mexico for pasture, and from Big Horn and Love they purchased 1000 head of Mexican cattle. These also will be sent out to pasture.

The G. O. S. Cattle company has bought 67 cows from the J. B. L. Cattle company and will ship them from Luna county to Grant county, N. M., for pasture.

H. T. Wals has brought over 325 head of cattle from Mexico, importing them at Pecos, N. M. H. T. Wals, M. Simpson, of Fowler, Colo., has bought 98 calves from the local cattle market and shipped them to his ranch in Colorado.

William Harrell will leave El Paso soon for San Angelo, Texas, to see the cattlemen of that section in the interests of the Panhandle and Southwestern Stockmen's association. He will be away a week and on the same trip will stop off at Alpine and Fort Stockton.

Receivers 114 Terrazas Cattle.

Terrazas cattle, to the number of 114, that were stolen and smugled across the border at Columbus, N. M., have been recovered through the activity of "Booker" Chandler, the Panhandle and Southwestern Stockmen's association agent. The cattle were trailed down and recovered and will be shipped to 32.

J. A. Pruitt has returned from a trip to Marfa and Alpine, Texas, where he sold a herd of 2500 yearling heifers and steers to Mallon and Stevens, of Denver, Colo. The cattle will be shipped to Colorado ports.

W. T. Tolbert has returned from a trip to Marfa, Texas, where he sold 2500 head of three year old steers to Campbell Bros., of Wichita, Kas. Mr. Tolbert made the trip in his Buick 31 car, but ran into the desert and had to leave his car behind. He expects to return for his car the last of the week.

Hal Counts, of Globe, Ariz., is here looking over cow pens for his ranch.

W. D. Frey, of Denver, Colo., is here looking over the cattle market.

LOWER PRICES FOR CATTLE PREDICTED

F. E. Baker, Kansas City Buyer, Sees Cattle Prices Predicted as a Result; Wool Will Be More.

Roswell, N. M., April 7.—That the prices for cattle and sheep are to drop, making beef and mutton cheaper in consequence, is the prediction of F. E. Baker, of Kansas City, an extensive stock buyer, who is here to receive and ship 450 yearling steers and heifers bought from McCoy brothers.

The cattle will go to the Chaney Deway ranch near Manhattan, Kas. Mr. Baker says that nearly all sheep and cattle feeders lost money on the account of the high price of feed, low markets and bad weather. He says that prospects are for the markets to continue lower, or at least a depreciation of beef and mutton from Argentine and Australia.

He says this means the cattlemen must take less for their stock. The sheepmen, however, will not suffer, for what they sacrifice on prices for their stock they will make up in the increased price which will be paid for wool.

TULLOCH SELLS HIS CATTLE AND RANGES

James Royall Takes Over Extensive Livestock Holdings Near White Signal, Grant County.

Silver City, N. M., April 7.—One of the most extensive cattle deals transacted in some months was consummated here when James Royall, of this city, purchased the entire holdings of D. E. Tulloch at White Signal, south of the Burro mountains, comprising large herds of cattle and several of the finest ranches in Grant county. The purchase price was not known, but it was reported to be large. Mr. Tulloch will now devote his entire attention to his mining interests and will continue to make Silver City his home.

NEW MEXICO BANKER BUYS BLOODED BULLS

Fort Sumner, N. M., April 7.—W. H. Land, vice president of the First National bank, has received a carload of registered Durham, Hereford and black polled bulls, 17 in all, which he purchased from George, Okla.

Mr. Land, who is endeavoring to grade up stock in this section, sold the bulls to stockmen in this vicinity practically at cost and on easy terms.

RECLAMATION SERVICE TO INVEST IN SHEEP

Phoenix, Ariz., April 7.—A thousand sheep are to be purchased by the reclamation service as soon as possible to keep the canals and laterals of the Salt river valley free of grass and weeds. Experiments with goats and sheep have proved that the animals are invaluable in cleaning ditches. Not only do they save the hire of laborers, but the weeds are turned into mutton in a profitable way. The mutton will be used in supplying the reclamation service construction camps.

LARGE SHIPMENT OF SHEEP FROM ARTESIA

Artesia, N. M., April 7.—Large shipments of sheep continue to be made from this section of the Pecos valley. H. P. Larsh has just finished loading eight doubledecked cars with 1880 lambs, which were shipped to Kansas City. The sheep were fed on the Taylor place, west of town. A balanced ration of alfalfa meal, cotton cake, corn chop and kaffir chop fattened the lambs in 72 days.

PECOS VALLEY WILL BE LIVESTOCK CENTER

Roswell, N. M., April 7.—That the real purpose of the First State Livestock Show and Products exposition is to make the Pecos valley a livestock center, is the statement made by those behind the project. Already great advancement towards this goal has been made, for in the past several years the raising of graded cattle and the importations of blooded dairy herds have given special attention.

WARNING AGAINST CHARBON IS ISSUED

Deadly Plague Among Animals Should Be Guarded Against, Says State Board of Health.

Austin, Tex., April 7.—From July to November, 1913, there were outbreaks of charbon (anthrax) in 17 counties of Texas. In some of these counties there

were hundreds of cases among animals and hundreds of deaths. A total of 133 cases of charbon, with 283 deaths, was reported to the health department during 1913, and the estimated and reported value of the stock dying of this disease was \$98,475. The state board of health urgently asks stock raisers and owners to exercise early precautions to prevent charbon from assuming epidemic proportions during the coming spring, summer and fall. If epidemics of this disease are to be

averted, the early and first cases must be properly handled. All carcasses should be completely destroyed by burning; all animals sick of charbon should be absolutely isolated and quarantined, and all those exposed to the disease should be vaccinated.

SLAUGHTER BECOMES MEMBER OF MEXICAN CATTLE COMPANY
Douglas, Ariz., April 7.—J. H. Slaughter, of the San Bernardino ranch, near

here, has been added to the directorate of the Slaughter Land and Cattle company. The other directors are: R. L. Slaughter, who operates the ranch; W. B. Slaughter, of Dallas, Tex.; and Geo. M. Slaughter, of Roswell. The company owns a big ranch near Moctezuma, Sonora, having acquired it from George F. Woodward, of Los Angeles, Calif.
